

RMS – The professional surface treatment specialists

Since its creation in 1947, RMS has grown to become the UK's largest privately-owned highway surface treatment specialist. It now operates on a nationwide basis and provides one of the widest ranges of specialist highway services in the UK.

RMS has earned itself an enviable reputation for its ability to combine a thoroughly professional service with the highest levels of customer care, and this has contributed to the long-term relationships that the company now has with many of its customers.

RMS is characterised by a genuine desire to provide a high quality, customer-friendly and reliable service. The company adopts an open, partnership approach and places great emphasis on the satisfaction of both its customers and the general public. The result is a specialist surface treatment capability that is focused, flexible, professional and reliable.

Services to meet your needs

RMS is one of very few companies that can provide a comprehensive range of specialist services on a genuinely nationwide basis.

- Conventional and premium carriageway surface dressing
- Dressing of restricted access areas such as narrow lanes and housing estates
- Carriageway micro-asphalt
- Carriageway slurry seal
- Footway surface dressing
- Footway slurry seal
- Supply and application of bitumen emulsions
- Supply and application of tack coats and bond coats
- Retread and aggregate recycling
- Pre-patching prior to surface treatment

All the company's activities are supported by an externally audited quality management system to BS EN ISO9001:2000 and National Highway Sector Schemes.
